

How You Can Support the Partnership:

Educational Leadership, Preschool Through Secondary Education

1. Promote the importance of **parent involvement** in education. Help parents to understand their roles as their children's **first and most important teachers** and the value of **life skills** as a foundation for learning.
2. Help us to distribute information to parents about the **services and supports** that are available to them that will promote their children's learning and success in school.
3. Work with us to convey important messages to parents about the importance of **school attendance** and **summer learning**.
4. Join us in **collecting and analyzing educational data** on Danbury's children as we implement our plan and track the progress of our work.
5. Work with us as community partners in **ensuring smooth transitions** for children from preschool to elementary school.
6. Become active members of our **School Readiness/Early School Success Team**.

For more information about Danbury's Promise for Children Partnership, call Caroline LaFleur, Coordinator, at 203-300-1486 or email caroline.lafleur@uwwesternct.org.
